Definitions 2007-08 CSRDE Retention Survey

1. Timing Definition

The definition of "a year" for this survey is the 12-month period from the beginning of a fall term in one year to the beginning of the following fall term. The fall enrollment status is based on the official reporting date for the IPEDS fall enrollment report.

2. First-time Freshman (See IPEDS definition)

"An entering freshman who has never attended any college. Includes students enrolled in the fall term who attended for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school)."

Report only full-time, baccalaureate degree-seeking, first-time freshmen in this survey.

3. ACT or SAT Columns

For the ACT/SAT columns, report either ACT or SAT score, whichever is used by the <u>majority</u> of freshmen for admission purposes. If reporting SAT, provide composite scores.

4. Ethnic Groups (See IPEDS definitions)

Black, Non-Hispanic

"A person having origins in any of the black racial groups of Africa (except those of Hispanic origin)."

Hispanic

"A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race."

Asian or Pacific Islander

"A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or Pacific Islands."

American Indian or Alaskan Native

"A person having origins in any of the original peoples of North America or who maintains cultural identification through tribal affiliation or community recognition."

White, Non-Hispanic

"A person having origins in any of the original peoples of Europe, North Africa, or the Middle East."

Nonresident Alien

"A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely."

Note: There is no need to report in a separate subgroup those who did not identify with one of the above ethnic groups. However, they should be included in the total reported on page 1 of the survey and noted on the checklist accordingly.

5. Continuation Rates

Continuation rate is the percentage of first-time, full-time freshmen in a given fall term who returned to the institution in a subsequent fall term. For example, the "continued to 3rd year" rate for fall

2000 first-time freshmen is the percentage of fall 2000 first-time freshmen who returned for fall 2002. The calculation of continuation rate does not include students who returned to the institution after having graduated from the same institution. For specific time points for reporting, see *2007-08 Survey Documentation Form*.

Reminder: As is the convention with IPEDS, data used for these calculations may be adjusted for students who departed for the following reasons: deceased, permanently disabled, or joined the armed forces (including those called to active duty from the Reserves or National Guard) or foreign aid service of the federal government or official church missions. These are exclusions, and may be subtracted from the cohort prior to calculating the continuation rate. Example: Number in cohort who continued to 3rd year / (cohort headcount - the allowable exclusions).

6. Cumulative Graduation Rates

Graduation rate is the <u>cumulative</u> percentage of first-time, full-time freshmen in a given fall term who graduated within a designated period of time. For example, the "graduated in five years" rate for fall 2000 first-time freshmen is the percentage of fall 2000 first-time freshmen who graduated from the institution by the fall 2005 term, including those students who completed their courses during the summer of 2005. For specific time points for reporting, see 2007-08 Survey Documentation Form.

2007-08 Survey Documentation Form

The following table provides the point-in-time for reporting each data cell:

		ACT	Continuat	ion Rates -	atesCumulative Graduation Rates and Continuation Rates
